

Termination of Ti-Tree Earn-In Joint Venture

Highlights:

Yinnetharra

- **Termination of Ti-Tree Earn-In Joint Venture**
 - Delta Lithium and Voltaic Strategic Resources (ASX: VSR) have mutually agreed to terminate the Earn-In Joint Venture agreement over the **Ti-Tree project**.

Delta Lithium Limited (ASX: DLI) (“Delta” or “the Company”) provides an update in relation to project tenement status at the Yinnetharra Lithium and Tantalum Project.

The Yinnetharra Project is in the Gascoyne region of Western Australia targeting lithium mineralisation. Delta has over 2,000km² of project tenure which is 100% owned. A mineral resource estimate (MRE) update for Yinnetharra was released in March 2025 of **21.9 Mt @ 1% Li₂O and 75ppm Ta₂O₅** and an **additional 17.5Mt @ 136ppm Ta₂O₅**.

Delta and Voltaic Strategic Resources have mutually agreed to terminate the Earn-In Joint Venture agreement over the Ti-Tree project.

The Ti-Tree Project consists of tenement E09/2503 and applications E09/2522 and E09/2935.

Commenting on the transaction, Delta Lithium Managing Director, James Croser said;

“Delta and Voltaic have mutually agreed to terminate the Earn-In and Joint Venture Agreement over the Ti-Tree project. We wish Voltaic every success in the future. Delta will continue its exploration efforts on the 100% owned tenure in the Yinnetharra region as we look to build upon the current Mineral Resource.”

Release authorised by the Managing Director on behalf of the Board of Delta Lithium Limited.

About Delta Lithium

Delta Lithium (ASX: DLI) is an exploration and development company focused on bringing high-quality, lithium-bearing pegmatite deposits, located in Western Australia, into production. With current global JORC compliant resources of 36.5Mt@1.0% Li₂O, strong balance sheet and an experienced team driving the exploration and development workstreams, Delta Lithium is rapidly advancing its Projects.

The Mt Ida Project has coincident gold and lithium orebodies and holds a critical advantage over other developers with existing Mining Leases and an approved Mining Proposal. Delta Lithium is pursuing a development pathway to unlock maximum value for shareholders. Delta has recently spun out its gold assets into Ballard mining on 14th July 2025 and retains a 34.4% equity stake in this company.

Delta Lithium also holds the highly prospective Yinnetharra Lithium Project, with exciting lithium discoveries at the Malinda and Jamesons prospects. The Company is currently conducting exploration activities at Yinnetharra with fieldwork continuing in 2026 across our large tenure package, testing additional targets and aiming to build on the current JORC Resources.

Competent Person's Statement

Information in this Announcement that relates to exploration results is based upon work undertaken by Mr. Olaf Frederickson, a Competent Person who is a Member of the Australasian Institute of Geoscientists (AIG). Mr. Frederickson has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a 'Competent Person' as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (JORC Code). Mr. Frederickson is an employee of Delta Lithium Limited and consents to the inclusion in this announcement of the matters based on his information in the form and context in which it appears.

Refer to www.deltalithium.com.au for past ASX announcements.

Past Exploration results and Mineral Resource Estimates reported in this announcement have been previously prepared and disclosed by Delta Lithium in accordance with JORC 2012. The Company confirms that it is not aware of any new information or data that materially affects the information included in these market announcements. The Company confirms that the form and content in which the Competent Person's findings are presented here have not been materially modified from the original market announcement, and all material assumptions and technical parameters underpinning Mineral Resource Estimates in the relevant market announcement continue to apply and have not materially changed. Refer to www.deltalithium.com.au for details on past exploration results and Mineral Resource Estimates.
